

ICINT 2024

2024 9th International Conference on Information and Network Technologies (ICINT 2024) aims to provide a leading international forum for researchers, practitioners, and professionals from the industry, academia and government to share their new ideas, progresses and achievements in information and network technologies and related fields. ICINT 2024 will be held in Tokyo, Japan during May 24-26, 2024, which is co-sponsored by Kogakuin University and University of the Ryukyus.

The conference calls for high-quality, original research papers in the theory and practice of information and network technologies. The conference also solicits proposals focusing on frontier research, new ideas and paradigms in information and networking technologies.

Tokyo, Japan

May 24-26, 2024

Submission

Submission Methods:

- Submission System: <https://www.zmeeting.org/submission/icint2024>
- Submission Email: icint@iacsitp.com

Templates:

Word Template | LaTeX Template

Page Limit:

Each full paper should be with 4 to 8 pages.

Publication

Submitted papers will be strictly reviewed by technical program committee. Accepted papers will be published in **Conference Proceedings**, which will submitted for index by **Ei Compendex** and **Scopus**. The authors of the papers will be invited to participate in ICINT 2024 to share their research results.

Publication News:

The proceedings of ICINT 2023 have been published by CPS and included into [IEEE Xplore](#) and indexed by [Ei Compendex](#) and [Scopus](#). The proceedings of ICINT 2022 have been published by CPS and included into [IEEE Xplore](#) and indexed by [Ei Compendex](#) and [Scopus](#).

Call For Papers

The main topics of interest include, but are not limited to:

Track1 : Advanced Information Systems and Data Management

- Advanced Computational Science and Applications
- Advanced IT Medical Engineering
- Advanced Management Information Systems and Services
- Artificial Intelligence
- Bio-inspired Computing and Applications
- Computer Architecture & VLSI
- Computer Security
- Data Mining Applications
- Expert Systems
- Database & Data Mining
- Pattern Recognition
- Hardware Computer Design

Track2: Digital Communication Technology and Development Technology

- Data Communications
- Digital Signal and Image Processing
- Wireless Communication and Mobile Computing
- Wireless Sensor Networks
- Computer Networks & Communications
- Internet & its Applications
- Computer and Network Security
- GIS Technology and Application
- 5G and beyond Communication Technologies

More details, please view:
